Below the banner, there are two main sections: 'Navigation' and 'Programmes categories'. The 'Navigation' section includes links for 'Home', 'Dashboard', and 'My programmes'. 5) Internet Do's and Donts

DO'S

- DO use the Internet to help with schoolwork. The Internet is a source of great volumes of information. **It's like having the world's largest library at your fingertips.**
- **DO be careful about talking to "strangers" on a computer network. Who are these people anyway? Some people say and do things that are NOT NICE**
- Remember that people online may not be who they seem.

DONT'S

- **DON'T give your password to anyone. Passwords are intended to protect your computer and your files. It's like giving the key to your house away**
- **DON'T give any personal information, such as your name, your family's address, phone number, credit card or calling card numbers, your social security number, your school's name, or your picture to anyone on a computer network that you don't personally know.**
